Establishing & Sustaining Collaboration: Keys to Success

Dr. Marilyn A. Brown Regents & Brook Byers Professor of Sustainable Systems Georgia Institute of Technology

> Georgia Tech October 24, 2018

Establishing Collaborations

Issues to consider for your presentation:

-What factors do you look for/seek

in *establishing* collaborations with people or groups of people?

What factors have predicted well in success of establishing collaborations? And conversely, have any been poor predictors?

Importance of Connectedness

Sustaining Collaborations

Sustaining collaborations:

What means/mechanisms have you employed toward successful outcomes in sustaining collaborations?

-"Long-term collaborators": What are the elements associated with longevity of collaboration?

Sustaining Collaborations

Staying in touch with Oak Ridge **National Laboratory**

Continuing to write with my favorite book co-author

Less Successful Collaborations

--Have you had collaborations that were less than successful?

- --In hindsight, what made them unsuccessful?
- --What did you learn about collaboration?
